Notice to Mill Owners.

THE undersigned having purchased one half of the right of making, vending and using VALENTINE'S PATENT CAST IRON WATER WHEELS, for the United States, have at a great expense fitted up patterns for casting twenty one different sizes of these Wheels, which are particularly adapted to the various heads of water for which they may be wanted

Upwards of two hundred of these Wheels have been put in operation in this State within the past year giving perfect satisfaction to the purchasers

A model of these Wheels was tested at Lowell Mass the past summer, by a Board of Engineers composed of Ithamar A Beard and James B Francis Esqs of Lowell and E A Straw Esq of Manchester, and it was afterwards placed in the hall of the Mechanics Fair at their last exhibition in Boston and received the only diploma awarded on water wheels

We annex an extract from the certificate of E A Straw, Esq one of the board of engineers, giving a statement of the experiments made with the model at Lowell, which establishes the great superiority of the Valentine Wheel over any of the kind in use

MANCHESTER, July 11 1844

Dear Sir —I send you the results of several experiments made at Lowell the other day with your Model of Valentine's Patent Reacting Wheel I consider the trial to have been a very fair one and the results are certainly very creditable to your wheel. I think they prove conclusively that your wheel is at least 50 per cent stronger than any of the Tub or Reacting Wheels now in general use

The coefficient of effect, or per centage of power derived from well constructed Breast or Overshot Wheels acting under favorable circumstances is usually reckoned at 66 per cent and that of the short Tub and Reacting Wheels at 33 per cent but in most cases out of ten in practice I think it will be found that the power derived from Breast Wheels will not exceed 60 per cent of the power applied or the power derived from Tub Undershot or Reacting Wheels 25 per cent of the power applied, indeed I know of well constructed Tub Wheels acting apparently under favorable circumstances that do not give a coefficient of effect equal to 20 per ct

With the results of your wheel before us it needs no arguments to show how vastly superior it is to such Wheels as I have mentioned The least result obtained from your wheel gives us about 42 per cent of the power applied which is nearly double of the power that could be derived from the common wheels before mentioned acting under the same circumstances

I have added nothing to the coefficient of effect for the friction of the wheel and apparatus which according to our measure of it was 40 lbs or 1 10th of the heaviest weight raised If this were added as perhaps it should be to get at the actual effect of your wheel it would give as the result of all the trials a coefficient of effect of 50 per cent which I have no hesitation in saying is a result that may be obtained from any wheel similar to the model, well constructed and acting under favorable circumstances

Experiments No s 1 2 and 3 were made without back water Ex No 1 400 lbs lifted 9½ feet—fall 5 08 feet—effect 42 8 10 per cent 2 400 lbs lifted 9½ feet—fall 5 08 ft —effect 41 9 10 per cent 3 400 lbs lifted 9 12 ft—fall 5 7 feet—effect 42 6 10 per cent

The mean of experiments No s 1, 2 and 3 would be 42 4 10 per cent without the friction in all an average of about 47 per cent which may be considered as the effect of your wheel when working free from back water

In experiments No s 4 5 and 6 the wheel was immersed in back water, but was very evidently overloaded

In experiments No s 7 8 and 9 wheel was immersed in back water

Ex No 7 296 lbs lifted 9 1 2 feet high—fall 4 006 ft—effect 47 3 10 per cent 8 196 lbs lifted 9 1 2 ft—fall 4 021 ft—effect 58 3 10 per cent 9 296 lbs lifted 9½ feet—fall 4 01 feet—effect 49 1 10 per cent

The mean of experiments 7 8 and 9, would be 48 6 10 per cent besides the friction, in all an average of about 53 per cent which may be considered as the effect of your wheel when working just immersed in back water

E A STRAW Civil Engineer of the Manchester Water Power Co'

All persons wishing to purchase Mill Wheels and other fixtures can have their orders executed promptly and on the most reasonable terms HINKLEY & EGERY Bangor Feb 18 tf Exchange st

Dr. S. O. Richardson's CELEBRATED SHERRY WINE BITTERS.

THE Proprietor of this Medicine offers to the Public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied, by those who have become acquainted with the singular virtues of these Bitters, that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact that most diseases arise from a derangement of the Stomach and Bowels, in youthful adult and declining life

The stomach crammed with every dish,
A tomb of roast and boiled, and flesh and fish,
Where bile and wind and phlegm and acid jar,
And all the man is one intestine war

The sympathies which subsist between these and every other part of the living body in the form of nervous diseases of all kinds—Irregular Appetite, Languor, Drowsiness Wandering Pains, Headache Lowness of Spirits, &c

And though in their time give birth to Dyspepsia, Palpitation of the Heart Shortness of Breath, Jaundice, Piles Fevers Inflamatory Humors Coughs, and a host of diseases which embitter life and poison all sources of enjoyment.

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like where nature needs assistance to prevent more serious consequences they will be scarcely felt

On the contrary, in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified It is accomplished they act on the system in connexion with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor

☞ For sale wholesale and retail, at the Doctor's Office, No 5 HANOVER STREET Boston; and in Bangor by G W Ladd, A P Guild, Potter & Brown, Hall & Young and N B. Folsom, and all the Agents throughout the State 3tuw&w4m

EXCELLENT WATER POWER FOR MILLS AND MANUFACTURING PURPOSES.

THE excellent water power at the outlet of the Great East Pond in the town of New port county of Penobscot and State of Maine, is now offered for sale in such parts as purchasers may desire This water power combines three essential advantages an unfailing supply of water the pond covering a large portion of the town, and raised with little expense or damage, freedom from all risk as to freshets, and is never frozen It is situated in the heart of rapidly increasing and thriving agricultural county and is only twenty three miles distant from the city of Bangor

There is now situated on this outlet a Tannery an Iron Foundery and Machine Shop, and a Saw Mill and a Grist Mill

The owners wish to dispose of a privilege sufficient for driving a large amount of machinery and also of several acres of land adjoining or of portions of the same to be used for various manufacturing purposes

It is believed that the advantages here offered are rarely equalled and never excelled, and that the terms of sale will be such as to be worthy the attention of capitalists and others who may wish to engage in manufactures

NOTICE TO PROPRIETORS OF CERTAIN LANDS IN THE STATE OF MAINE.

THE Legislature of the Commonwealth of Massachusetts by a Resolve passed 1st April 1836 directed the Land Agent of said Commonwealth to give notice to sundry proprietors of lands in the State of Maine who were required by a condition contained in the original deeds of conveyance from the Commonwealth to place a certain number of farmers on their respective tracts and requiring them to furnish evidence of the fulfilment of said condition, or pay the sum of $80 for each family deficient on the first day of June 1840, or the lands would be declared forfeited

Pursuant to said Resolve notice was soon after given to all the proprietors of lands subject to said condition most of whom have complied therewith and removed the incumbrance The proprietors however of the following townships or tracts have not responded to the notice neither have they (so far as is known to this office) settled for the implied with said condition viz In the County of Cumberland—a gore of land lying between the towns of Raymond and Otisfield, formerly conveyed to Samuel Phillips

County of Franklin—Township Letter D conveyed to Jonathan Gardner, and number two and number three in the third range

County of Oxford—Township No 1 now the town of Riley and A No 2 now the town of New ry

County of Somerset—A township No 2 1st Range north of Singhams Kennebec purchase, granted to the Trustees of Sandwich Academy

County of Penobscot—Township No 3 on the west side of Penobscot River granted to the Maine Literary and Theological Institution now the town of Argyle South half of township No 3 5th range North of the Wildo patent granted to Dorrance and others and the north half of township No 3 9th range granted to the Trustees of Warren Academy

County of Washington—Township No 3 1st range west of Passamaquoddy River granted to Samuel Huckley No 1 4th range, ditto granted to William Colburn now called Vanceborough and a half township on the Eastern boundary line granted to the Trustees of Limerick Academy now called Newlimerick

The undersigned is required by a late resolve of the Legislature of Massachusetts passed the 18th day of March last again to give notice to the proprietors and to take such measures as he may deem to be necessary, to recover to the Commonwealth the possession of any of the above named townships or tracts of land from such proprietors as shall have failed on the first day of December next of complying with the requisition of the Resolve of the first day of April 1836

THE **Great American Remedy** FOR Salt Rheum, Erysipelas, Scrofula, Leprosy, Scald Head, Ulcerated Sore Leg, Scurvy, and all diseases of the Skin, OR "JONES'S DROPS FOR HUMORS."

A PERFECTLY safe internal medicine having now been about three years before the public and its superlative merits thoroughly tested is destined the Proprietors confidently believe to be instrumental still, in the removal of a vast amount of human suffering Let the afflicted procure it immediately—carefully read understand and then faithfully follow the directions and uniform success will be the inevitable result

CERTIFICATES

This certifies that my daughter, about 3 years of age has been afflicted with Scrofulous Humors from her birth —I have assisted to many medicines purporting to be remedies, with as little success as seem a certainty of the effects of Jones's Drops for Humors, I was induced to try it, and I cheerfully say, that to all appearances she is now free from the effect of a cure, and I can confidently recommend it to others similarly afflicted Saco, April 19 1844 JOHN B GOWEN

TO ALL WHOM IT MAY CONCERN This may certify that I have sold for several years past Jones's Drops for Humors with entire satisfaction to the purchasers, and I not doubt that they are a great and good medicine, for the complaints they are designed for York, Me, July 29, 1844 EDW G BROOKS

MR JONES Dear Sir The Drops for Humors left with me are all sold They have been universally approved and I still are called for I do not know of a solitary instance where they have disagreed according to directions in which cases they have proved the most conquerors of the diseases they are recommended for They have truly done many an amount of good to those who have been afflicted, relieving the distressed and curing the sick Respectfully yours, &c Belfast, June 3, 1844. LORAINE'S PILLS

OR
VALUABLE UNIVERSAL MEDICINE,
CURATIVE,
OF THE
French College of Health, in Paris.

THESE Pills are now acknowledged by thousands, who take them daily to be the only medicine that fairly takes the Banner from all others This *Extraordinary Medicine* has actually done WONDERS within one year past all over the inhabited world where it has been introduced They cause no pain or uneasiness, of any kind in their operation, and require neither change of diet or care of any kind
The attention of the readers is respectfully called to the following important results from the use of these Pills It will be seen however great achievements have heretofore been made by the use of this invaluable medicine—still greater, and more remarkable cures daily happen

SWELLING OF THE BODY FROM HEAD TO FOOT, CURED!

BOSTON, (Mass) March 10 1844.
SIR.—About a year since I was taken severely ill, with a swelling of the body from head to foot, so that I was entirely helpless The doctor advised me to go to the Hospital, for he said he did not understand my case The persuasion of friends induced me to try Dr Loraine's Vegetable Pills which in a few days, produced a great change in my system, by increasing the natural discharges, causing appetite relieving the pain, removing the swelling and giving me strength and a perfect cure
MARY JANE FRANCIS

A SEVERE PAIN IN BOTH SIDES, CURED!

LOWELL (Mass) April 20, 1844
SIR—For the last few months I have been afflicted with a severe pain in both sides at times so hard that I could scarcely get my breath * * * It is a pleasure to feel well—but a much greater one to say that I was cured immediately upon taking a dose of Dr Loraine's Pills J BROOKS

A HACKING COUGH CONSTANTLY ANNOYED ME!

BOSTON (Mass) June 1, 1844
SIR—In February last I took a sudden cold after which a hacking cough constantly annoyed me, and this (combined with my other maladies rendered me truly miserable, as every body told me that I was in a consumption Since I have taken Loraine's Pills and now every body tells me that I am well—I feel as well as ever I did

IMMORTALITY.

COMPETITORS for fame have struggled and played their parts upon the stage of human life, each with one grand object in view, and to that object, the crown of their desires, have they pushed upwards and onwards. True immortality, however, is attainable only by proper means, humility and benevolence are in the path. The modest and unassuming aspirant courts not the smiles of men but like the venerable Parr, moves steadily on, happy in the conviction that his humble labors will be one day appreciated and studiously intent on leaving behind a legacy which shall be a blessing to tens of thousands

NEW AND MOST EFFECTIVE REMEDY.

DR. WOOD'S

SARSAPARILLA AND WILD CHERRY

BITTERS,

For the Cure of the following Diseases.

Jaundice Liver Complaint, all Bilious Complaints Sick Headache Heart Burn Indigestion, Habitual Costiveness, Piles Palpitations of the Heart Loss of Appetite, Dyspepsia Nervous Irritations Debilitated Stomach Languor, Depression of Spirits Chronic Rheumatism, Cutaneous Diseases, Canker Syphilod Diseases, Scrofula Impurities of the Blood Pimples and Pustules on the Face Hereditary Humors, Cold Sores and all diseases arising from an injudicious use of mercury
The attention of the invalid public and all those afflicted by any of the above diseases is respectfully called to the merits of a new and invaluable preparation from an original receipt of a distinguished physician combining in itself the most active remedial properties of two of the very first articles in the Materia Medica
The Sarsaparilla and Wild Cherry Bitters, were introduced to the public about twelve months ago, and during that period their success has been so great as to induce the proprietor to offer them with still more confidence in the full belief that by entering into more extensive use they will prove a blessing to all those suffering from the diseases above enumerated
DYSPEPSIA OR INDIGESTION.
This scoundrel, distressing and almost incurable complaint—the torture of civilized society has found in them a remedy. A good condition of the stomach and bowels Those afflicted by it are cut off from all the enjoyments of life the pleasures of the table, and sweet and regular sleep—the victim a confirmed Dyspeptic fatally neglected is but the forerunner of more dangerous diseases, if not of death itself At its first appearance it should be checked by an attention to diet and regularity aided by the use of some safe and salutary medicine All that would wish a cure of this kind is presented in Dr WOOD'S Sarsaparilla and Wild Cherry Bitters a skillfully prepared and delightful Tonic and Aperient every day becoming more & more popular The following is one among many certificate of the efficacy of this medicine in the cure of Dyspepsia and Indigestion, Head ache, &c
C Gibbs is well known in this vicinity and cheerfully gives his testimony of the efficiency of this Medicine
Sandwich Sept 4, 1844
DEAR SIR This is to certify that my daughter has been troubled with Dyspepsia for a number of years attended with almost constant headache and other distressing symptoms which accompany this disease She visited Boston to avail herself of the advice of the justly celebrated physicians of that city, all to no purpose By the sick station of a friend I was induced to purchase a bottle of Dr Wood's Sarsaparilla and Wild Cherry Bitters Before taking one bottle she was relieved entirely of the headache, and after taking two of bottles more of the other symptoms entirely disappeared
A B GIBBS
THE UNIVERSAL COMPLAINT, HEADACHE.
Who is there that does not occasionally suffer from this distressing affliction? We are truly in a mixed classes conditions and ages the torture of the nervous suffering is so much for all bodily and all mental exertion rendering them nervous and irritable, and unfitting them for business or enjoyment The principal, if not the sole cause of this bodily ailment is found in a disordered condition of the stomach and bowels, corrupting the blood, and bringing the nerves generally disarranging the system and preventing that great blessing of life a regular, certain and easy digestion Only ensure this, and the difficulty will vanish In order to effect this desirable object, no medicine ever offered to the public has been used with greater success than Dr Wood's Sarsaparilla and Wild Cherry Bitters recommending all the advantages of the tonic and aperient medicines of the day and free from many of their usual disadvantages
The annexed certificate of Col Bayless will be read with interest by those afflicted with Headache, and other complaints arising from a deranged stomach
New Bedford Aug 16, 1844
Dear Sir I find Dr Wood's Sarsaparilla and Wild Cherry Bitters all that you recommended them to be, and it is great pleasure in saying that I think them the best preparation of the kind ever offered to the public I have been troubled for a long time with Jaundice, and derangement of the stomach, attended with Headache and Vertigo which was so bad at times that I could not rise, and think that I am entirely cured by the use of these bitters I have used them in my family, and would recommend them to every one suffering from Jaundice, Indigestion, and Headache
JOHN BAYLISS
DEPRESSION OF SPIRITS
At certain seasons of the year, and particularly in the spring, many persons are subject to a depression of the spirits accompanied by a debilitated stomach, loss of appetite, nervous irritation, general languor and a variety of symptoms, which it is impossible to describe The only way to remove this disease is to strengthen the stomach by the use of proper tonic remedies, to brace up the nerves, excite an appetite for food and allay nervous irritation and by putting the body in a healthy state of health to produce vigor and strength of mind To do this, nothing is more effective than the Sarsaparilla and Wild Cherry Bitters They are confidently recommended as the best SPRING MEDICINE ever offered to the public One trial of their virtues will be sufficient to convince all of their invaluable properties, and those who have used them will never resort to any other remedy for this painful disease, destructive as it is to all happiness and usefulness in life
CAUTION TO THE PUBLIC
Be particular and ask for Dr Wood's Sarsaparilla and Wild Cherry Bitters, and not receive no others This is the first preparation of Sarsaparilla and Wild Cherry combined ever offered to the public, and the great success attending its use will induce the unprincipled to counterfeit As a preventative, see that the bottles have the words Dr Wood's SARSAPARILLA AND WILD CHERRY BITTERS printed on the glass as a further protection and label on the bottle will be signed by the proprietor, E Thurston, Jr Take these precautions and you will get the genuine article.
From the New Bedford Register.
Dr Wood's Sarsaparilla and Wild Cherry Bitters—The respectability of gentlemen in this town and vicinity, who testify to the benefits, within their personal knowledge, derived from the use of this Compound of Sarsaparilla and Wild Cherry, is such as to put to rest all doubts as to the value of these extracts to those suffering from Dyspepsia Jaundice, Indigestion, Headache, or Scrofulous diseases When a medicine has been known to effect cures in certain cases, no recommendation is needed, other than a simple statement of facts To those then, who are liable to any complaints for which the Sarsaparilla and Wild Cherry Bitters is advertised as a remedy, we would say, do as others have done and find relief in the way pointed out by the proprietor of this highly popular compound.
FOSTER & BROWN

PRESSED HAY.

80 TONS pressed HAY for sale at No 1 City Point by E & W JEWELL

Highly Important to all Invalids & Friends of Invalids.

THE AFFLICTED IN DANGER!
SALUTARY CAUTION,
READ! READ!!

THE well established and well-earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote, and cure in cases of Severe Head Aches, Indigestion, Dyspepsia, Dysentery, Colic, Female Complaints, &c &c has excited the cupidity and envy of the proprietors of other medicines, and since their admirable qualities cannot be impugned, has aroused against them the antagonist efforts of men who seek to pass off other medicines by the reputation of Wright's Indian Vegetable Pills
Beware of all attempts to palm off any (so called) specifics by means of pompous sounding and deceptive titles "SUGAR COATED PILLS" may be pleasant to the palate, but it requires something more than an agreeable exterior to cure but with disease We shall not attempt to analyze the composition of the "Sugar Coated or pretended improved Indian Vegetable Pills," which have been thrown into the market and advertised extensively in the country papers—we have no desire to do so—nor is it necessary It is, however, our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills, and that, whoever purchases them under this supposition is woefully deceived This caution is positively necessary since the title nearly of the qualities set forth the composition of rival cons, &c are all those which formed the distinctive and original character of the true medicine
Remember buy none but "WRIGHT'S Indian Vegetable Pills" which are protected by patent These have attained an almost incredible sale and circulation owing altogether to their own intrinsic merits The public will pass its own judgment upon any attempt to substitute Lucrel from the brow of the inventor of these medicines where has been pilloried by grateful thousands who owe their continuance of the enjoyment of the blessings of health to his happy and benevolent agency
Wright's Indian Vegetable Pills
have performed wonders when used in cases of Intermittent, Remittent Nervous, Inflammatory and Putrid Fevers Measles Small Pox and Erysipelas Inflammations of the Brain throat stomach, lungs, liver intestines kidneys and bladder, pains in the stomach, back and side, consumption, dropsy of the head of the chest of the abdomen and of the limbs, scrofulous, scurvy and syphilis cancer, gravel loss of appetite, sick headache neuralgia rheumatism lethargic and chronic, spitting of blood diarrhea, dysentery and relaxed cholera, epilepsy and paralysis dyspepsia, hypochondriac and hysteria, long cough Palpitation of the heart ulcers and sores of every description, hysterics, weak nerves, and low spirits suppression and other delicate Female Complaints They deliver thus powerfully THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE The human system is so constructed that we not have ransacked for poisonous minerals to infect the system under the pretence of eradicating disease The first and the last time I took a cathartic from a vegetable Or the leaf of an herb From these have been collected remedies adapting the various forms of disease and expelling it by the means provided by the author of our being The Lungs, the Skin the Kidneys and the Bowels Hence Wright's Indian Vegetable Pills based upon the curative properties of the nature, are Sudorific Diuretic Expectorant and Laxative
The popularity of this invaluable medicine entitles it to unlimited confidence and respect The manner we approach to nature in our researches after truth both in science and art the more complete will be our success in both I look at the uniform physical condition of the Indian Tribes of this continent whether exposed to the floods and storms of the North or to the rain, heat and pestilent miasma of Southern climate Houseless unprotected exposed to every atmospheric change every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps—They yet enjoy an almost total immunity from disease while the white man who enjoys all the comforts of civilization with its attendant arts is as much inferior to the savage in physical vigor as he is superior to him in intellectual acquisitions—How does this happen? Simply because he relies the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering and the mitigation and cure of disease—sowing them broadcast on every hill and valley For those who implicitly arrange the positions of Divine Providence shed point with sincerity to the multitude of invalids who lie groaning upon beds of sickness turn from the false lights of man and study the secrets of nature, and they will find that means which has so bountifully provided a cure for every wound—a *remedy for all who seek one*
Disease rarely assumes one form from another even to any one case but the sensibility of all changes by one uncomfortable medicine But Wright's Indian Vegetable Pills are a remedy for every form of disease attacks successfully are equally as common in all climates This union of powers render these pills thoroughly cleansing in their nature and operations They cannot fail of affording relief if taken according to directions accompanying them They may be safely recommended in the most desperate cases of the most desperate disease as for they have effected remarkable and marvellous cures They are applicable to a wide range of diseases and their use is not confined to any particular age or country They are now triumphantly established beyond the reach of evil and the only danger that exists is on the part of the patient, lest they should suffer from their use improper Pill or Injudicious treatment of bitters in addition to that of the genuine Pills These fire, we note more caution they be against purchasing any but the

GENUINE
"WRIGHT'S INDIAN VEGETABLE PILLS,"

These Pills are we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid in the homely but expressive phrase a new man whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs producing that dry hacking cough so painful to the friends ear or Cutaneous showing itself upon the skin in eruptions or blotches, whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease
The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity
In a word this medicine commends itself strongly to the patronage of the public and its use bids fair to become, before long, ALMOST UNIVERSAL

FILLING.
Dr Jordan now makes use of nothing but pure gold for filling carious teeth
Extracting with forceps of the latest and most approved kind, avoiding most of the pain heretofore attending the operation
TEETH cleansed and polished in a beautiful manner without pain or injury to the enamel
Inserting Teeth on pivot with such neatness that they cannot be detected with the strictest scrutiny and which will answer all the purposes for which the natural teeth are employed
PLATE WORK.
Dr J would especially call the attention of the public to his mode of setting teeth on gold plate—Persons who have lost a part ...

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM.

IF there be a pleasure on earth which superior beings cannot enjoy, and one which they might also envy man the possession of, it is the power of relieving pain How consoling, then, is the consciousness of having been the instrument of rescuing thousands from misery to those who possess it What an amount of suffering has been relieved, and what a still greater amount of suffering can be prevented, by the use of Sand's Sarsaparilla? The unfortunate victim of hereditary diseases, with swollen glands, contracted sinews and bones half carious, has been restored to health and vigor The scrofulous patient covered with ulcers, loathsome to himself and to his attendants, has been made whole Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now, with regenerated constitutions, gladly testify to the efficacy of this meritorious preparation
The following testimonial can most commend itself to the careful attention of all similar suffering,
Sands's Celebrated Sarsaparilla,
I speak experimentally when I say that this medicine is far more effectual in the cure of chronic or acute rheumatism than any other preparation I have ever tested Having endured extreme suffering, at times within the last five years from repeated attacks of inflammatory or acute Rheumatism, I have recently used Sands's Sarsaparilla with the happiest success my health is now better than it has been for many years, my appetite is good, my strength is rapidly returning I attribute this healthful change entirely to the use of this great medicine Feeling a deep sympathy with those all over afflicted with this most distressing and painful complaint I cannot refrain from earnestly recommending to such the use of this valuable medicine. Having given up by the most distinguished CONFIRMED AND INCURABLE Balsam has cured and will cure the *cases* It is no quack nostrum, but a regular Medicine of known and established efficacy
INCONTESTIBLE PROOFS
Of the efficacy of this Balsam in the worst forms of Consumption
From Dr Storer of Sacco

Another Life Saved
DR BRADLEY Dear Sir I take great pleasure in informing you that my wife has been greatly benefited by the use of your Hygeian Balsam. She was given up by the most distinguished physicians in Boston as a hopeless case of Consumption, and I believe it is the Balsam that has saved her life. I have recommended it to many of my friends and they have found it to be a good medicine. I believe it will do all you claim for it. I have tried it in my family for Rheumatism and it has proved a good medicine. I have also tried it in my family for Rheumatism and it has proved a good medicine. I have also tried it in my family for Rheumatism and it has proved a good medicine. I have also

Notice to Mill Owners.

THE undersigned having purchased one half of the right of making, vending and using VALENTINE'S PATENT CAST IRON WATER WHEELS, for the United States, have at a great expense fitted up patterns for casting twenty one different sizes of these Wheels, which are particularly adapted to the various heads of water for which they may be wanted

Upwards of two hundred of these Wheels have been put in operation in this State within the past year, giving perfect satisfaction to the purchasers

A model of these Wheels was tested at Lowell Mass the past summer by a Board of Engineers composed of Ithamar A Beard and James B Francis, Esqs of Lowell and E A Straw, Esq of Manchester, and it was afterwards placed in the hall of the Mechanics' Fair at their last exhibition in Boston, and received the only diploma awarded on water wheels

We annex an extract from the certificate of E A Straw, Esq one of the board of engineers, giving a statement of the experiments made with the model at Lowell which establishes the great superiority of the "Valentine Wheel" over any of the kind in use

"MANCHESTER, July 11, 1844.

Dear Sir —I send you the results of several experiments made at Lowell the other day with your Model of Valentine's Patent Reacting Wheel I consider the trial to have been a very fair one and the results are certainly very creditable to your wheel, I think they prove conclusively that your wheel is at least 50 per cent stronger in proportion of the Tub or Reacting Wheels now in general use

The coefficient of effect, or per centage of power derived from well constructed Breast or Overshot Wheels acting under favorable circumstances is usually reckoned at 66 per cent and that of Undershot Tub and Reacting Wheels at 33 per cent but in nine cases out of ten in practice I think it will be found that the power derived from Breast Wheels will not exceed 60 per cent of the power applied or the power derived from Tub Undershot or Reacting Wheels 26 per cent of the power applied, indeed I know of well constructed Tub Wheels acting apparently under favorable circumstances that do not give a coefficient of effect equal to 20 per ct

With the results of your wheel before us it needs no arguments to show how vastly superior it is to such Wheels as I have mentioned The least result obtained from your wheel gives us about 12 per cent of the power applied which is nearly double of the power that could be derived from the common wheels before mentioned acting under the same circumstances

I have added nothing to the coefficient of effect for the friction of the wheel and apparatus which according to our measure of it was 40 lbs or 1 10th of the heaviest weight raised If this were added as perhaps it should be to get at the actual effect of your wheel it would give as the result of all the trials a coefficient of effect of 50 per cent which I have no hesitation in saying is a result that may be obtained from any wheel similar to the model well constructed and acting under favorable circumstances

Experiments No s 1 2 and 3 were made without back water Ex No 1 400 lbs lifted 9¼ feet—full 5 06 feet—effect 42 8 10 per cent 2 400 lbs lifted 9¼ feet—full 5 08 ft—effect 41 9 10 per cent 3 400 lbs lifted 9 1 2 ft—full 5 07 feet—effect 42 5 10 per cent

The mean of experiments No s 1, 2 and 3 would be 42 4 10 per cent without the friction for all an average of about 1 per cent which may be considered as the effect of your wheel when working free from back water

In experiments No s 4 5 and 6 the wheel was immersed in back water, but was very evidently overloaded

In experiments No s 7 8 and 9 wheel was immersed in back water

Ex No 7 296 lbs lifted 9 1 2 feet high—full 1 005 ft—effect 17 3 10 per cent 8 296 lbs lifted 9 1 2 ft—full 1 01 1 ft—effect 16 3 10 per cent 9 296 lbs lifted 9½ feet—full 1 02 feet—effect 4 1 10 per cent

The mean of experiments 7 8 and 9 would be 48 6 10 per cent besides the friction in all an average of about 5½ per cent which may be considered as the effect of your wheel when working just immersed in back water

E A STRAW *Civil Engineer of the Manchester Water Power Co*

All persons wishing to purchase Mill Wheels and other fixtures can have their orders executed promptly and on the most reasonable terms

Dr. S. O. Richardson's CELEBRATED SHERRY WINE BITTERS.

THE Proprietor of this Medicine offers to the Public the result of an extensive practice and a thorough investigation of the laws which govern the human system.

It cannot be denied, by those who have become acquainted with the singular virtues of these Bitters that they possess a pre-eminence over all others now in use for the diseases which they profess to cure

It is a well known fact that most diseases arise from a derangement of the Stomach and Bowels, as youth full adult and declining life

The stomach crammed with every dish,
A tomb of roast and boiled and flesh and fish,
Where bile and wind, and phlegm and acid jar,
And all the man is one intestine war

The extensive sympathies which subsist between these and every other part of the living body in the form of ten thousand nervous diseases of all kinds—Irregular Appetite Languor, Drowsiness Wandering Pains Headache, Lowness of Spirits &c

And these, in their turn give birth to Dyspepsia Palpitation of the Heart Shortness of Breath, Jaundice, Piles Fevers Inflamatory Humors, Coughs, and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters to most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like where nature needs assistance to prevent more serious consequences they will be scarcely felt

On the contrary, in obstinate cases, they frequently operate more powerfully causing two or three evacuations daily, until the circulating fluid becomes purified this accomplished, they act on the system in connexion with our food each receiving mutual assistance and all the constitution is restored to a state of health and renewed vigor

☞ For sale, wholesale and retail, at the Doctor's Office, No 15 HANOVER STREET, BOSTON, and in Bangor by G. W. Ladd, A P Guild, Potter & Brown, Hall & Young and N B Folsom, and all the Agents throughout the State. 3iawd&w1m

EXCELLENT WATER POWER FOR MILLS AND MANUFACTURING PURPOSES,

THE excellent water power at the outlet of the Great Eddy Pond in the town of Newport County of Penobscot and State of Maine is now offered for sale in such parts as purchasers may desire This water power combines three essential advantages an unfailing supply of water the pond covering a large portion of the town and can be drawn with little expense or damage freedom from drift ice as to freshets and is never frozen Being situated in the heart of rapidly increasing and thriving agricultural country, and is only twenty three miles distant from the city of Bangor

There is now situated on this outlet a Tannery an Iron Foundery and Machine Shop, and a Saw Mill and a Grist Mill

The owners wish to dispose of the privilege and amount for driving a large amount of machinery and also of several acres of land adjoining, or of portions of the same to be used for various manufacturing purposes

It is believed that the advantages here offered are rarely equalled and never excelled, and that the terms of sale will be such as to be worthy the attention of capitalists and others who may wish to engage in manufacturing

NOTICE TO PROPRIETORS OF CERTAIN LANDS IN THE STATE OF MAINE.

THE Legislature of the Commonwealth of Massachusetts by a Resolve passed the 1st April 1836 directed the Land Agent of said Commonwealth to give no exclusory proprietors of lands in the State of Maine who were required by a Resolution contained in the original deeds of conveyance from the Commonwealth to place a certain number of settlers on their respective tracts and requiring them to make a satisfactory fulfillment of said condition or pay the sum of $30 for each family deficient on the third day of June 1836 or thereafter as was the fee thereof stated

Pursuant to said Resolve notice was sent and given to all the proprietors of lands subject to said condition to whom, have complied the result and received the mentioned bounties The proprietors however of the following townships or tracts have not responded to the notice neither have they (so far as is known to this office) settled for or complied with said condition viz In the County of Cumberland—a gore of land lying between the towns of Raymond and Otisfield, formerly conveyed to Samuel Phillips

County of Franklin—Township Letter D conveyed to Jedediah Gardner and number two and number three in the third range

County of Oxford—Letter A No 1 now the town of Riley, and A No 3, now the town of Newry

County of Somerset—A half township No 1, 1st Range north of Bingham's Kennebec purchase, granted to the Trustees of Sandwich Academy

County of Penobscot—Township No 3 on the west side of Penobscot River granted to the Maine Literary and Theological Institution now the town of Argyle South half of township No 3 sixth range north of the Wilderness granted to Drury Cushman and others and the north half of township No 6 9th range granted to the Trustees of Warren Academy

County of Washington—Township No 3 1 range west of Passamaquoddy River granted to Samuel Huckley No 1 9th range granted to Williams College now called Lincoln township and a half township on the Eastern boundary line granted to the Trustees of Limerick Academy now called New Limerick

The orders and requisitions by a late resolve of the Legislature of Massachusetts passed the 11th day of March last came to give notice to delinquent proprietors to take such measures as they may deem to be necessary, to convey to the Commonwealth the possession of any of the above named townships or tracts of land from such proprietors as shall have failed on the first day of December next of complying with the request on of the Resolve of the first day of April 1836

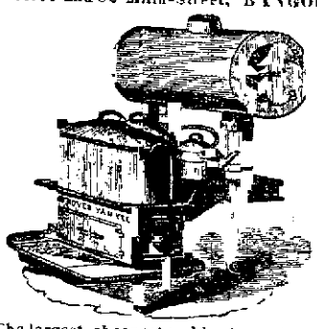
Cheap Cash STOVE WAREHOUSE.

Nos. 80 and 82 Main-Street, BANGOR.



The largest, cheapest and best assortment of Stoves of all descriptions ever offered in this city.

NATHANIEL JOHNSON as above has just received and has on hand and for sale, cheaper than ever before offered the best assortment of Air Tight Cooking and other STOVES in the State of Maine. He challenges competition from any quarter in the styles qualities cheapness economy and convenience of his stoves. All in want are advised to give him a call and thus save money and enhance their comfort and convenience
Among his extensive collection of Stoves may be found the following patterns and styles
The Maine Farmer Cook Stove which stands unsurpassed—is the best ever made —as cast experience has made of the best iron stock is one quarter harder than usual and if any one is dissatisfied not prove satisfactory it can be returned and trade with Wolves from the sale and the price paid will be refunded
A new and beautiful article called Parlor Stove with columns pearls Heat Jacket. This is decidedly the most elegant article for the parlor ever offered
PATENT AIR TIGHT FIRE PLACE COOKING STOVES
This Stove has been on sale but a short time still it has obtained a greater notoriety than any other Stove ever offered its superiority and excellence in every branch of cookery as well as its great economy in fuel
Stone's Sunrise and Winter Air Tight Cooking Stove Also Wagers Air Tight Cook Stove, warranted to give perfect satisfaction
Likewise the PREMIUM AIR TIGHT with cast iron tops, and bottoms—lining inside—will keep its color and shape, &c The Railway Stove—Bathing Stove—Hampden Stove—Nolton Furnace Stove, 4 boiler—Empire Union Stove—Shepherd's Hot Air and 40 other kinds, of all descriptions
N J respectfully invites the citizens of Bangor and the adjoining country to call and examine his immense collection of Stoves, promising to sell them as cheap as they can be bought at any other establishment in the State. Especially would he caution his country friends against placing too implicit confidence in those itinerant vendors of Stoves to whom they must not pay a round price. Dr their Stoves not they are also taxed for horse hire and other heavy expenses in addition
Please call at 80 and 82 Main st Bangor

LORAINE'S PILLS:

OR
VALUABLE UNIVERSAL MEDICINE,
CURATIVE,
OF THE
French College of Health in Paris.

THESE Pills are now acknowledged by thousands who take them daily, to be the only medicine that fairly takes the Banner from all others. Thus *Extraordinary Medicine* has actually done WONDERS within one year past all over the inhabited world where it has been introduced. They cause no pain or uneasiness, of any kind in their operation and require neither change of diet or care of any kind
The attention of the readers is respectfully called to the following important results from the use of these Pills. It will be seen however great achievements have heretofore been made by the use of this invaluable medicine —still greater, and more remarkable cures daily happen

SWELLING OF THE BODY FROM HEAD TO FOOT CURED!!

BOSTON, (Mass) March 10, 1844
SIR —About a year since I was taken severely ill, with a swelling of the body from head to foot so that I was entirely helpless The doctor advised me to go to the Hospital, for he said he did not understand my case The persuasion of friends induced me to try Dr Loraine's Vegetable Pills which in a few days produced a great change in my system, by increasing the natural discharges causing an appetite relieving the pain, removing the swelling, and giving me strength and a perfect cure
MARY JANE FRANCIS

A SEVERE PAIN IN BOTH SIDES, CURED!

LOWELL (Mass) April 20 1844
SIR—For the last few months I have been afflicted with a severe pain in both sides at times so hard that I could scarcely get my breath * * * It is a pleasure to feel well—but a much greater one to say that I was cured immediately upon taking I dose of Dr Loraine's Pills J BROOKS

A HACKING COUGH CONSTANTLY ANNOYED ME!

Hyde Park (Mass) June 1 1844
SIR —In February last, I took a sudden cold, after which a hacking cough constantly annoyed me, and this combined with my other maladies rendered me truly miserable, as every body told me that I was in consumption Since I have taken Loraine's Pills and now every body tells me that I will well—I feel as well as ever I did

DR. WISTAR'S BALSAM OF WILD CHERRY.

THE best medicine known to man for incipient Consumption, Asthma of every stage, bleeding of the lungs, coughs, colds, liver complaint, and all diseases of the Pulmonary Organs, may be had of Agents named below.
☞ All published statements of cures performed by this medicine are, in every respect, true. Be careful and get the genuine, "Dr. Wistar's Balsam of Wild Cherry," as spurious imitations are abroad
Orders from any part of the country should be addressed to ISAAC BUTTS, No 125 Fulton-st New York.
The public are cautioned against being deceived by a man calling himself Brown who is travelling about the country endeavoring to sell his worthless trash for the genuine, which is itself a good for nothing. The following highly respectable gentlemen and firms have been appointed Agents for the sale of the genuine Dr Wistar's Balsam Wild Cherry.

New England Agent.

IMMORTALITY.

COMPETITORS for fame have struggled and played their parts upon the stage of human life, each with one grand object in view and to that object, the aims of their desires, have they pushed upwards and onwards. Fame immortality, however, is attainable only by proper means, humility and benevolence are the path The modest and unassuming aspirant courts not the smiles of mortals like the vainglorious Parvenu, moves steadily on, happy in the conviction that his humble labors will be one day appreciated and gratefully recent on leaving behind a legacy which shall be a blessing to tens of thousands

NEW AND MOST EFFECTIVE REMEDY

DR. WOOD'S
SARSAPARILLA AND WILD CHERRY
BITTERS,
For the Cure of the following Diseases.

Jaundice, Liver Complaint all Bilious Complaints Sick Headache Heart Burn, Indigestion Habitual Costiveness, Flat Palpitations of the Heart Loss of Appetite, Dyspepsia Nervous Irritations Debilitated Stomach Languor Depression of Spirits Chronic Rheumatism, Cutaneous Diseases Canker, Syphilitic Diseases, Scrofula Impurities of the Blood Pimples and Pustules on the Face Hereditary Humors Cold Sores and all diseases arising from an injudicious use of mercury
The attention of the invalid public and all those affected by any of the above diseases is respectfully called to the merits of a new and invaluable preparation from an original receipt of a distinguished physician combining in itself the most active medicinal properties of two of the very best articles in the Materia Medica
The Sarsaparilla and Wild Cherry Bitters, were introduced to the public about twelve months ago, and during that period their success has been so great as to induce the proprietor to offer them with still more confidence in the full belief that by entering into more extensive use, they will prove a blessing to all those suffering from the diseases above enumerated

DYSPEPSIA OR INDIGESTION.

This unendurable, but unsparing almost universally this complaint—the torture of civilized society has its foundation in a deranged condition of the stomach and bowels Those afflicted therewith are cut off from half the enjoyments of life the pleasures of the table and sweet and regular sleep attention is confined Dyspepsia fatally neglected is but the forerunner of more fatal grievous diseases it is not of itself death itself At its first appearance it should be checked by an attention to diet and regularity aided by the use of some active and salutary medicine All the moral force in defence of this kind is presented in Dr WOODS'S Sarsaparilla and Wild Cherry Bitters, skillfully prepared and delightful Tonic and Aperient every dose becoming more & more popular Due to its wonderful curing in my receipts of the effects of this medicine in the cure of Dyspepsia and Indigestion, Headache &c

Col Gibbs is well known in this vicinity and effectually gives his testimony of the efficiency of this Medicine

Sandwich Sept 4 1844
Dear Sir This is to certify that my daughter has been troubled with Dyspepsia for a number of years attended with almost constant headaches and other distressing symptoms which has compelled us to discontinue her school. She commenced taking your Sarsaparilla and Wild Cherry Bitters by the advice of the most eminent physicians of this place, and after using two bottles she was entirely relieved from her complaint. Yours &c
N R GIBBS

Dr. Wistar's Balsam of Wild Cherry.

Dr Wistar's Balsam of Wild Cherry is a most valuable medicine for Pulmonary Complaints, and I have found it a most efficacious remedy in my family, and in my professional practice for the last two years with the most satisfactory results in cases of severe Pulmonary Disease I cheerfully recommend it to all who are in the use of a valuable remedy for such diseases which I am acquainted
Very Respectfully
FREDERICK T SHEPHERD
Saco, May 22 1845

Valuable testimony from David Hughes Esq

BANGOR Sept 20 1844
DR BRADLEE Dear Sir At your request I now give you my testimony in relation to the wonderful effects of your Sarsaparilla upon those many complaints which I have suffered from for the last three years. I had the Dyspepsia in its worst form, and was so much reduced that I was unable to walk a mile without stopping to rest. I had also a very bad cough

Patent Water Wheel.

THE undersigned Agents for the manufacture and sale of VALENTINE'S PATENT WATER WHEELS are prepared with patterns for casting all the different sizes and forms of wheels required for the various conditions in which they are used

The superiority of these Wheels may now be considered as fully established, the evidence of which may be seen in the fact that hundreds of them have been put into successful operation in this State within two years past and also in the fact that a diploma was awarded for them by the managers of the Mechanic's Fair in Boston last year, and further that many careful experiments were made by scientific Engineers at Lowell last season the results of which as stated in a communication by one of them, prove conclusively that the Valentine Wheel is at least 50 per cent stronger than any of the Tub or Reacting Wheels now in general use"

The undersigned are prepared to furnish the above Wheels, together with all other kinds of mill work and machinery used in this section of the country upon the most reasonable terms

PATENTS.

AMERICAN AND FOREIGN OFFICE,
Agency of the U S Patent Office Washington
No. 22 State-Street, Boston.

THE subscriber by appointment from the Commissioner of Patents is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded free of expense and risk to their owners and with all possible despatch The subscriber will prepare Caveats Specifications Assignments and all the necessary Papers and Drawings, will make researches into American and Foreign archives for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents The experience of fourteen years practice—an extensive collection of rare works documents decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established and to which daily additions are being made together with accounts here kept of inventions attented at Washington enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment

JOHN B. SAYWARD, Editor.

MONDAY, AUGUST 4, 1845.

☞ *Every Subscriber to the* DAILY WHIG & COURIER *is entitled to a FREE ADMISSION to the COMMERCIAL READING-ROOM, over the Bendinskeag Market!*

WHIG STATE CONVENTION.

THE WHIGS of the several cities, towns and plantations in the State of Maine, are requested to select Delegates to meet in Convention, at PORTLAND on THURSDAY August 7th, at ten o' clock A M, to nominate a Candidate for Governor and to adopt such other measures as the welfare of the Country and the interest of the Whig party may demand

The ratio of representation will be as follows — Towns and plantations of 1000 inhabitants or less will be entitled to two delegates, of more than 1000 and less than 2000, to four delegates, of more than 2000 and less than 4000, eight delegates, of more than 4000 and less than 6000, ten delegates, of more than 10 000 fifteen delegates

By Order of the State Committee

Bangor, June 1845

COUNTY CONVENTION.

THE Whigs of the County of Penobscot are hereby notified and requested to select delegates to meet in Convention, at the City Hall in Bangor on FRIDAY Aug 22 at 10 o clock A M to nominate three candidates for the Senate of the State, a candidate for County Commissioner, candidates for the offices of Clerk of the Court County Attorney and County Treasurer to be supported at the annual State election, and to transact such other business as the interests of the County may require

Towns and Plantations having more than 2000 and less than 3000 are entitled to 3 delegates those having more than 1000 and less than 2000 to 6 delegates those having more than 500 and less than 1000 to 4 delegates those having 200 and less to 2 delegates Towns having more than 3000 inhabitants are entitled to a representation in proportion It is hoped that every Town will be fully represented in the Convention

Per order of the County Committee

aug 4

The Means of Self Education

Let us consider briefly the means by which man may develope his faculties improve his mind enlarge his affections, and do those things which, when well done, shall make him a self educated man in the common and general acceptation of the term The fact that it is possible for a man to educate himself, accords with general observation and which nearly every man is willing to acknowledge But it must not be expected that any precise rules or any set formulas can be given the knowledge and observance of which shall secure the result even in those fields at one there can never be what may strictly be called a result Circumstances and tastes and opportunities differ No two men perhaps ever acquired a knowledge of their trade or art in the same manner They had in both to believe that which fair opportunities for observation reflection and practice they could succeed So in self education, there must be faith in ones capacities, and there must be opportunities for observation study and reflection With these and these all New England men at least may have, if they will progress can be made

With some, here and there one it may be necessary to begin at the very threshold of the enterprize The man may have little faith in himself and small abilities But he should remember that a few letters and figures, and characters the whole of which may be written upon the palm of a man s hand and with which every child is familiar are the keys that unlock every chamber and closet of the vast temple of human learning The deed of his right to possess and enjoy the various apartments of this temple is written with a firm hand upon the sole condition that by worthy efforts he make progress in the development of his powers He may be the owner and enjoy the possession if he will

With others it may be necessary to acquire a taste for reading They may never have become interested in it as a delightful mode of holding communion with cultivated minds among the dead and living but who live for all time in written works This taste may be acquired But reading must not degenerate into mere amusement or pleasant excitement A man may read a diligent and delightful reader of books, and yet make no progress in the acquisition of sound knowledge or enlarging culture But a taste for reading one should have, and may have

Having acquired this taste, the man who would educate himself should direct his attention to some department of learning connected with his every day pursuits in order that the exercise of the mental powers may go on in union with the labor of the hands That must be a bad life where the head and the hands do not work together

Next to this he may select some branch of science or history or some one department of learning upon which he will bestow attention Scattered thoughts and miscellaneous gleanings will never answer for maturing the mind and giving solidity and strength Direct attention to some era in history and let this occupy the mind trace it out in spare hours search for the best author treat upon the subject seek for sources of information question those at hand likely to be informed upon the subject, or able to give direct ones where information may be obtained Thus revolve the whole matter in the mind until it becomes familiar with the contact, gather up all the facts and their relations, and thus gain a complete mastery of the whole subject

Take some branch of natural science and upon this in a similar way concentrate thought, direct inquiries and mostly confine the reading Let the subject be fully mastered and woven into the web of the mind in clear and distinct forms

By pursuing the course with this various subjects undertaken each succeeding step will be easier than its predecessor But do not blindly follow the naked assertions of authority however good it may be esteemed, but strike deep for the reason of things until every thing shall seem like your own personal discoveries

In all branches undertaken, and before laying one aside to engage on another make the pen familiar Write often Be not discouraged in first attempts Practice, here, is everything — By perseverance the bungling and awkward scrawl of to-day, will give place to the elegant essay of to-morrow

Every new subject mastered, every acquisition thus made puts a massive beam into the mind that strengthens and studies and supports it. Every beam framed into the mind makes it easier to add another, and with every addition of strength comes additional usefulness and an increase of pecuniary enjoyment.

Let us be distinctly understood We do not mean to say that every man, whatever his circumstances and whatever may have been his early training, can, while in the pursuit of his regular business and while earning the daily bread for himself and family, master the languages and become learned in all the sciences and cultivate an acquaintance with the graces of literature We would not counsel men thus to hope We know from sad experience how hard the struggle is to make comparatively slight progress, and how hopeless the task must be to accomplish, what to do well requires the whole of a long life, from the cradle to the grave, under the most favorable circumstances

But this we would urge upon all men every where, whatever may be their circumstances, however hedged in by obstructions, that by making efforts, and fully arousing their reserved powers and tasking their mental faculties they may greatly enlarge the boundaries of their knowledge—acquire a length of mind, and open to themselves new means of influence and multiplied sources of pleasure

No truth is clearer proved by the lives of men who have lived before us and who are still to be found in society, than this that as education, useful to the community, beneficial to the individual and contributing largely to happiness may be obtained by every earnest minded man, after arriving at an adult age, by a judicious use of leisure hours, applying himself of popular institutions and devoting himself honorably to the work It is not essential that the man relinquish his pursuit—he need cease to earn bread for his family and discharge fairly the social and other obligations which he owes to his family and to the community, in order to acquire a useful education. Most pursuits afford opportunities, for thought and reflection, and what is mainly necessary, is, that these opportunities be improved and that some special and definite object of thought be kept before the mind This can be accomplished without so far acting much time from labor to consult books

But we must close these remarks and in doing so we would suggest to those for whom they are intended the faithful trial of our experiment in their own experience of how great advances may be made in useful knowledge in the time which they can safely and appropriately spare from their every day pursuits

Information Wanted

The public attention was called in our paper a few weeks since, to the case of a poor unfortunate deaf and dumb man, who has been wandering about this section of the country for several months past, and is unable to communicate to any one in an intelligible manner, any circumstances, that may lead to the discovery of his name or the part of the country whence he came

On Saturday he was brought into our office by Mr Samuel Banton of Corinna, who having heard of his distressing case, took him to his house and acted the part of the good Samaritan towards him, and has been endeavoring, though in vain without success, to arrive at such information as may lead to the discovery of the place where his friends reside

This unfortunate man appears to be about 50 years old, is of rather large size nearly six feet tall, of a sun burnt complexion His hair is of a dark brown color and his whiskers a little grey He is somewhat lame, one of his legs having been once broken while he was attempting to load a log on a sled, as he made another sign, (an intelligent man) who tried to converse with him, to understand

There is on his leg a large scar, apparently made by the bone protruding through the flesh He has a very care worn and anxious look, and seems to be exceedingly desirous to make himself understood The mute alluded to, inferred from these signs, that he has been a married man, and that his wife is dead, and that he has seven children now living, one of whom is a mute and also he conjectures, that they reside somewhere in Canada or in some part of the States that border on Canada He has in his possession a small sum of money partly in English shillings and six pennies When taken up by Mr Banton, his clothes were much worn and patched with different colors And he appeared to have suffered a good deal from the frost, his legs being yet swollen, apparently from the effects of it

His condition is a very melancholy one, and calls loudly for the sympathy and commiseration of the public and it is hoped that the papers generally and particularly those that circulate in the British Provinces and those parts of the States bordering on them, will publish this notice

Any information or inquiries respecting him may be directed to Samuel Banton Esq Corinna, Maine

Afflictions' sons are brothers in distress—
A brother to relieve how exquisite the bliss

☞ The Un or furnishes a table of the members of the Texas Convention, from which we compile the following facts The number of members is 61 Rusk, the President, is a native of South Carolina He is a Lawyer He went from Georgia to Texas in 1835 There is but one Native Texan (Navarro in Bexar) in the Convention All the others left the United States recently—cause not mentioned Of these, only 56 have signed the ordinance assenting to Annexation, and one of these (Bache) voted against it, but afterwards signed it Their occupations are—Lawyers 23, Famers 13, planters 6, Merchants 3 Mechanics 2, Agriculture 1, Inspector 1, Surveyor 1, Editor 1, Not given 9

The oldest member is 64 years of age, (Standifer) The youngest is J M Burroughs, aged 21 The States take the honor of giving their birth as follows Tennessee 13, Virginia 8, Georgia 6, Kentucky 6, North Carolina 4, South Carolina 3, Pennsylvania 2, Massachusetts 5, Louisiana 2, Alabama 1, Ohio 1, Maine 1, Texas 1, England 1—not given, 10 Thus out of 61 members, New England has only 3, all the free States only 6

Last Week.

The entertaining and ingenious exhibit on of the Battle of Bunker Hill and of the Enchanted Isle &c is to close this week This is a very instructive and delightful exhibition and well deserving of the public patronage We hope the worthy proprietors will this week draw full houses.

☞ The City Council will meet this afternoon at 2 o clock

Elections this week.

The following five states hold the elections to-day, Kentucky, Indiana, Alabama, Illinois, and Missouri, and on Friday next, North Carolina and Tennessee These States with the exception of Illinois and Missouri, which have already chosen, are to elect their Congressmen 47 in all As a plural ty elects in them all, there will, of course, be no second trials, unless here should happen to be a tie, which is not at all probable These States gave Mr Clay last Nov. 36 votes, and Mr Polk 40 Of the 47 members of Congress to be chosen this week, the Whigs will propably elect about 19, and the Locos 28

The contest does not seem to be very spirited in any of these States, and consequently, the locos who are always on hand elect on days, will be the gainers

Turk's Island.

Advices from Turk s Island to the 4 h of June, states that the inhabitants were again suffering for want of provisions Unless there should be a speedy arrival, the poor Turks Islanders would actually starve Three boats went out in chase of a passing vessel, hoping to get a supply, but could not overtake her

A great trotting match came off over the Cambridge Course, near Boston, on Thursday last Four horses—Daniel Webster, Gov Dorr, Euclid and Moscow—were entered Moscow was declared to be the winner Gov Dorr was badly distanced It is suggested that he run better in the great rade which came off at Chepachet, than he ever will again

Another Windfall.

The Gazette says We understand that a Mr living who lives at Pushaw in humble circumstances, has recently received intelligence from Scotland that his wife is heir to an estate, her portion of which will amount to between one and two million of dollars!

☞ The Harmonedon Family are to give their last Concert this evening The lovers of good music have been entertained by them while they have been in our city, and will part with them with regret A full house undoubtedly will give them, this evening, a parting valediction

☞ Two Artillery Companies ordered some time ago from Hallowell to Boston passed through our city this morning to take passage in the Steamer Penobscot for Boston

Excursion and Pick-nick.

A numerous delegation of Odd Fellows from the different Lodges in the city with their ladies made an excursion on Friday afternoon, Aug 1st, in the steamer Jefferson, to a delightful grove in Orrington, some five miles from Bangor on a friendly visit to the Rev Mr Bailey a highly respectable Methodist Clergyman now located in Orrington It will be recollected by the readers of our public journals that by the action of the Methodist Conference of 1844 their preachers were prohibited from attending the meetings of the Order Mr B was among those who, under the circumstances, judged it inexpedient to violate the rule, and accordingly had not met with his brethren during the last conference year

The passage to O was soon accomplished — On arriving at the grove the company were introduced to Brother Baker, by Brother William H Mills, the Marshal of the day, in a brief and pertinent speech The reply from Brother B was very happy he gave us for himself and in behalf of his family, a cheerful welcome, and his words bespoke the possession of a large and kindly heart Prayer was offered by Rev Mr Nye, and, after the singing of an original Hymn, written by a lady,— o whom, for her appropriate contribution we once more tip our beaver Brief addresses upon the occasion, and the nature of the institution, whose members were now a "Lodge in the wilderness, were made by Ex Governor Kent, Rev Mr Baker and Rev Mr Nye

The Ladies, in connection with a few friends in Orrington, whom we were happy to greet, had made ample provision for the *needs* of the outer man

The tables were finely arranged, and overloaded with bounties, sufficient to gratify an Epicurean taste, and there were flowers, bright flowers, to please the eye, and perfume the strong and bracing air The blessing of God "who hath made everything beautiful in time —was invoked by the Br with whom we had assembled —also then cordially welcomed as to the least which our own hands had spread, the time hastened swiftly away We had music from the Band, and singing from chorus—formed for the time—and all rejoiced to be there At five, after a closing speech from the worthy past Grand, Moses Appleton Esq—the word was given and we were soon homeward bound The Band, to whom we were indebted for much of the enjoyment of the occasion, entertained us on our passage, and our return at the the sweet hour, when the smile of the infinite love, rested upon hill top, and valley, and stream was one of the pleasantest voyages, it has ever been our lot to enjoy

A slight accident which resulted in the injury of our worthy brother, E P Baldwin, was all which marred this enjoyment of the trip

We deem it proper here to say, that, while the ladies were engaged in spreading the tables, the gentlemen were engaged in passing the hat, and a collection, to the amount of some $70,00 was made, which, with several other valuable gifts, presented to Mr B and his family

The weather was all we could desire and it was he unanimous testimony of the party, that this, was one of the best social gatherings they had ever attended

We will only add, when the long-expected Bangor, shall ply upon our beautiful stream— and the Odd Fellows and Odd Ladies shall make their next trip, May we be there to see

A B C

Recently discovered bed of Diamonds in Mexico.

According to the report of an expert geologist Von Gerold, diamonds have been discovered in the Mexican mountain range in the Sierra Madre, in the direction of Acapulco, to the south west of the city of Mexico Humboldt had conjectured the diamonds and platina occurred further to the northwest in the gold washery of Sonora It is also said that immense tracts of auriferous alluvia, occured in Upper California as also in New Mexico They are principally in the possession of wild tribes, a circumstance which will accelerate the intrusion of North Americans and hasten the taking possession of them by strangers—(Puffendorf's Annalen

The Bible and Geology.

An earnest discussion is going forward in the London Times on the subject of Geology, and whether the views of Dr Buckland, Mr Sedgwick and others, who contend for the vast antiquity of the earth, are reconcilable with the Mosaic account of the creation One writer thus presents the case

The geologist has facts before him, which, as such he cannot yield, and the explanation must be sought in a more wide and less literal reading of the Mosaic account of the creation, and here I would remind those who may object, that from the too literal interpretation of many parts of Scripture, which are really only figurative, have arisen some of the most grievous errors of the Roman church We should also recollect, that the Scriptures have an far different and higher object than that of teaching us science, and that those parts to which refer to the creation were written as a reasonable and intelligible account, adapted to all ages and every class, that all who run may read, and not as a guide to the scientific inquirer Still we should expect, that nothing may be found to explain our modern views, the latter may not be opposed to what it has pleased God to reveal And this has been the conclusion of many learned divines who have studied with that particular object, and their researches have shown that the Bible and geology may go hand in hand in showing the omnipotence of God Those who would separate them are doing an infinite mischief to the former, for by asserting that Scripture will not bear the test of science, they make it less able to cope with open infidelity Truth must triumph over ignorance and bigotry Buckland and Sedgwick have less to complain of than the great Galileo, who was convicted of heresy for publishing our beautiful laws of astronomy, geology is now what astronomy was at that period—just emerging from darkness, and with many enemies ready to extinguish the little light with which it shines

I would recommend those who have had time to study the history of the earth, to give credit to those who have, and to fear nothing for religion, and I would beg of those who dread its advance, to inform themselves more fully upon the subject, fully assured that a belief in the hostility of modern science to our ancient and holy Scriptures can proceed only from an ignorance of one or the other

An opposite view is presented in the following extract

"Geologists urge that the primary strata present appearances which could not have been produced without a longer period than the Mosaic history speaks of They argue that the fossil remains prove the pre existence of the animal at a very much earlier period, my answer is this —If the possibility of creation be allowed, matter must have been created in some state, to which, at the moment of creation rolls drawn for its ordinary and future state could not possibly be applicable

Could Adam have argued within one year of his creation that it was impossible the world should have been created so recently seeing that the oaks around him required a hundred years to have come to maturity Every oak we now see in fact is necessarily the parent acorn and beyond that its parent tree It is impossible (if we believe said creation be admitted at all) that the same things should then have implied the same And if vegetable matter was subject to this anomaly why not also other? If the first oak did not spring from a boy, if the first oak never rose from an acorn why may not matter why, omit all matter have presented appearances at the very moment of its creation which rules drawn from its subsequent state could not be applied?

I affirm that the argument in question denies the possibility of creation, and I challenge those who deny this to supply any condition of any particle of matter, an animal, vegetable, or mineral, at the time of its creation, from which by applying the same argument it might not be proved (?) that such matter had pre existed in some less advanced state

The Charity.

The age is distinguished for benevolent institutions and for generous and widely extended efforts to reclaim the wandering, civilize the barbarous, instruct the ignorant and elevate the unfortunate and depressed of our race Are we not in danger, however, of being satisfied with the exercise of general benevolence, while too little mindful of the particular and immediate duties of Charity to those at our own doors Do not many persons contribute occasionally to some popular scheme of christian philanthropy, and find in such acts an excuse for neglecting to relieve the poverty and suffering in their vicinity? Indeed it is perhaps a fault of the times, that while there is sympathy and exertion for the masses and for remote nations, few appear earnestly engaged to counsel and aid and relieve individuals, their sick, bereaved, discouraged and distressed neighbors, to make out and appropriate in a special region for the rich alms and bounty the spot in which they reside, and where they are not at liberty to close their eyes upon misery, or their ears, hearts, or hands to the appeals The brightest examples of Christian character are not perhaps usually found among the eminent for talents, wealth, or station nor those most applauded for a series of splendid actions but among those ever faithful in common and daily duties intent on doing the good in their power on all occasions, cherish an a deep and habitual concern to meet and fulfil the obligations of charity in the circle of their fellowship in their relations and their lives They are those of one gracious aspect, and gentle manners and words of kindness are ever welcomed by sorrow and want, whom the eye that sees them blesses, and to whom the ear that hears them gives joyful witness Like the good old Patriarch they are eyes to the blind, and feet to the lame, and the less obvious and noticed causes and cases of affection they diligently search out In secrecy and silence they labor to dispense good the blessing of the perishing comes upon them and the widow and orphan a heart at their approaches sings for joy The world reads not the record of their worth they are treasured up in obscure dwellings and the memories of the poor, and written in Heaven We have known such We trust their numbers will increase That man may well be envied to whom the fine lines of Pope are applicable

"Who taught that heaven-directed spire to rise?
"The man of Ross" each lisping babe replies
Behold the market place with poor o erspread!
The man of Ross divides the weekly bread
He feeds yon alms house, neat, but void of state,
Where age and want sit smiling at the gate;
Him portion'd maids, apprentice orphans blest,
The young who labor, and the old who rest
Is any sick? the man of Ross relieves
Prescribes, attends, the medicine makes and gives
Is there a variance? enter but his door,
Balk'd are the courts, and contest is no more
Despairing quacks with curses fled the place
And vile attorneys, now a useless race,

N Y Jour Com

Death of General Jackson

The following notice was published in London on the 10th, by Mr Everett —

Legation of the United States —Information has been received at this office of the decease of General Andrew Jackson, on the 8th ult, at his residence in the States of Tennessee The undersigned is persuaded that his countrymen abroad will fully share the sorrow occasioned in the United States by the loss of a citizen who, having filled the highest offices in the civil and military services, and twice been called to the Chief Magistracy of the country has at length closed his illustrious career, of days and of honours

The undersigned respectfully invites his countrymen throughout Great Britain to join in the marks of respect universally paid to the memory of the deceased in the United States He requests that the commanders of all American vessels in the ports of the United Kingdom would hoist their flags at half-mast to-morrow the 16th inst, on the day after the reception of this notice; and that the usual badge of mourning be worn by the Consuls, Vice-consuls, and all other citizens of the United States, for the same length of time as at home.

London July 15th 1845

EDWARD EVERETT

BY TODAY'S MAIL.

Atlantic and St Lawrence Railroad.

The success of this road has now been placed beyond a doubt. By the Caledonia, letters have been received here which state that the amount allotted to British Capitalists has been taken — The books for application for stock were to close on the 21st of July, but, on the 15th, the applications had far exceeded the amount allotted — This secures the Canadian end, and from the liberality in subscription in Maine, there is no doubt that a commencement will soon be made to build a road of more value to the State of Maine, than any public work for a long term of years —N Y Express

Correspondence of the New Orleans Bee.

MAZATLAN 23d April 1845

On the 18th not considerable excitement was caused in this place, occasioned by a forced embargo at the point of the bayonet on the property of the only two American houses in Mazatlan, Parrott & Co and Mott, Talbot & Co to satisfy a demand for duties caused by a law of the State of Sinaloa, 1834, which law was annulled in 1837 by the tariff of that year and from that date up to a few days previous to the date of this the custom house had never demanded from any house such duties

The house of Parrott & Co, of course, was embargoed, on property to the amount of $40 000, to satisfy the claim, only amounting to about $4 000 after which the troops were marched to the house of Messrs Mott, Talbot & Co, with the object of laying an embargo on their property, but Capt Hope of H B M ship Dahlia, interfered and prevented the embargoes being laid, one of the partners of that firm being a British subject

Mr Parrot who for many years has been our consul at Mazatlan suffered with much patience the undeserved injustice done and the diplomatic relations between the United States and Mexico are suspended he has no resource in seeking redress from the Mexican Government, and very properly called in the French consul to witness the proceedings which are illegal and unjust from the commencement, as, no judge or competent authority in the place had passed sentence or judgement, in any shape or form, on the proceedings

April 20th —The embargo on the property of the American consul has not been raised notwithstanding a meeting has taken place to that effect The consul is determined to resist the payment and suffer his property to be sold — A military force was again demanded for laying an embargo on Mott Talbott & Co s property, but it was wisely refused

The New Orleans Picayune says,—"Verbally we have learned that the Mexican Government was to send 20 000 men immediately to Texas for the Texans We give this rumor as we received it

HARTFORD FIRE INSURANCE OFFICE

July

THE recent destructive fire in New York will of course excite a wholesome effect on the solvency of Insurance Companies in that city and the neighboring places The directors of the Hartford Fire Insurance Company are happy to assure their customers and the public, that they are prepared to adjust and pay promptly all losses sustained by fire from their ample funds and current receipts without delay and without withdrawing their permanent investments Their capital remains as the security of all who insure with them and they invite owners of desirable property to call and see on favorable terms both at the Bangor office and at their several Agencies Thus made and transacting business which for 35 years has secured the public confidence will remain unchanged By order of the Board of Directors

JAMES G BOLLES Sec

Those desirous of Insurance in the City and county will please apply to
